Robert crown school library resources

This list has been updated for fall 2020. With schools going remote or part-time this fall to stop the spread of coronavirus, you'll find yourself in a side-gig: teacher. Whether you're going to go to full-time home school, use the school's distance education, consider microschool or pandemic pod, or just face home a few days a week, you may need extra support when you're home schooling during the COVID-19 pandemic. If you're new to home schooling, you're probably wondering about finding a curriculum for home school and how it can help kids learn. Can you work from home, teach your kids, avoid free screen time for everyone, and keep your sanity? Remember that this is new to everyone, says Erin Girard, an expert in extracurricular education. Teachers don't always get it right, and we won't like parents. Be willing to be flexible and adapt. Here are resources to help you discover how to go to school at home or just enrich your days. A few weeks or months was one of the things, but if you're facing a whole year of home schooling or distance learning, it's worth finding out what the curriculum of your child's grade contains. Every state has requirements for home education. Learn about the state's home school laws, says Jamie Gaddy, editor in Chief of Homeschool.com. For an idea of what a child should learn, consult with today's Parenting Guides, which were developed by NBC News Learn with the help of theme experts and aligned with common Core State Standards. Many educational websites and online home school programs offer free or discounted subscriptions during the coronavirus crisis. If the family needs guidance, EPIC. Each person affects their children, there is a family support hotline. How to work from home while your kids are on March 18, 2020:24 Families with Alexa-enabled tools can take advantage of free educational programs for Bamboo learning, including math, history, music and stories. The Encantos Learning Hub has the tools for bilingual education and geography. Ed Helper free daily daily Pre-K in high school. To discover the right home school method for your family, think about your approach as a teacher and what best motivates your child as a student. Gaddy says. If you're looking for something restrained, consider options like unschooling. If you are more structured and like a schedule, you might appreciate something more traditional. Homeschool.com is a tool to help parents find the best curriculum. If there are a handful of options to take them for a test drive, Gaddy says. Make sure your child loves the program and is motivated to learn. Talk to your child and ask them open questions about what they love about school and what they like to learn, says Girard. Doesn't the child like math, but does he like to help out in the kitchen? You don't like to read, but do you like telling stories? You can adjust their education to their natural strengths. Looking for a home school day schedule? You can try following your child's usual school schedule or deciding on a plan for a family meeting. You can use these printable schedules to plan your day. It is important to know that younger children can only focus on a task for 10 or 15 minutes. Take lots of movement breaks, sing songs and get out if you can. Think, too, of the physical space that suits your child. Does your child like to stand? Sit? Create a fortress where you can work? Girard asks. Once again, you have the flexibility to create your own learning environment and schedule. Many libraries close, but online resources remain available. Check Libby, Kanopy, SimplyE and Hoopla to get free resources for your library card.
